EDUCATIONAL OPTIONS

Guidelines for Use of Educational Options

Generally, educational options may be used to meet specific needs of individual students requiring remediation or enrichment activities under unusual circumstances and in addition to, or in special cases, in place of the regular school offerings, or to meet unusual educational needs of students identified as gifted. In the area of enrichment and remediation, objectives and activities must be related to adopted courses of study.

All educational options require:

A. Approval of the Superintendent or designee.

B. Parent permission for student under 18 years of age (and unmarried).

C. Credit Issuance.

1. The units may be earned as follows:

   After notification of grades issued by an accredited association.

2. Students and parents have been notified through student handbooks that credit/promotion consideration may be given for those educational options which have been approved by the Board of Education.

The following options are available for use within the schools:

1. College Credit Plus (CCP)

2. Falls Learning Academy (FLA) – Jefferson County Educational Service Center

3. EDUCERE Online Credit Recovery

4. Pre-Approved Credit Option presented to the school administration from an accredited association.
