Children of Military Families Who Have Transferred from Another State

Pursuant to O.R.C. §3301.60, for students who are children of military families and have transferred to the District from another state (the “sending state”), the District shall waive specific courses required for graduation if the student satisfactorily completed similar coursework in a public school district in the sending state or shall provide a reasonable justification for the denial of a waiver. If a waiver is not granted, the District shall provide an alternative means for the student to acquire the required coursework so the student may graduate on time.

Where assessments are required for graduation, the District shall accept the exit or end-of-course assessments required for graduation in the sending state, national norm-referenced achievement test, or alternative testing.

If a student who has transferred into the District at the beginning of or during his or her senior year is ineligible to graduate after the District has considered the above-referenced alternatives, the District shall work with the student's prior public school district in the sending state to determine if the student meets the graduation requirements of that district. If the sending state is not a member of the Interstate Compact on Educational Opportunity for Military Children, the District shall use its best efforts as set forth above to facilitate the on-time graduation of the student.
