

PROCUREMENT AND ADMINISTRATION OF NALOXONE

The Board of Education may procure naloxone for use in emergency situations.

Employees, volunteers, or contractors of the Board (“authorized individuals”) may administer naloxone to an individual who is apparently experiencing an opioid-related overdose, in accordance with the written protocol established by a physician for the Board, if all of the following conditions are met:

1. The naloxone is obtained from the Board;
2. The authorized individual complies with the protocol established by the authorizing physician; and
3. The authorized individual summons emergency services as soon as practicable, either before or after administering the naloxone.

A copy of the current protocol established for administering naloxone is attached to this Board Policy.

The Board is not liable for or subject to damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action for injury, death, or loss to person or property that allegedly arises from an act or omission associated with procuring, maintaining, accessing, or using naloxone pursuant to this policy. This policy does not eliminate, limit, or reduce any other immunity or defense that the Board or an employee, volunteer, or contractor of the Board may be entitled to under Chapter 2305 or any other provision of the Ohio Revised Code or under the common law of Ohio.

LEGAL REFS: O.R.C. §§4729.514; 4731.943

Adopted: December 14, 2017

STANDING ORDER/PROTOCOL FOR ADMINISTERING NALOXONE (Narcan®)

Adapted from NASN Toolkit

1. RECOGNIZE: Observe individual for signs and symptoms of opioid overdose

- Pale, clammy skin
- Speech infrequent
- Not breathing, very shallow breathing
- Deep snoring or gurgling
- Unresponsive to stimuli (calling name, shaking, sternal rub)
- Slowed heart beat/pulse
- Blue/gray skin coloration (blue lips, fingertips)
- Pinpoint pupils

2. RESPOND: IMMEDIATELY CALL 911 and begin CPR as appropriate

Request Advanced Life Support then, check ABC's (Airway, Breathing, Circulation)

3. REVERSE : Administer Intra-Nasal Naloxone (Narcan®) Spray

Tilt persons head back and provide support under the neck with your hand. Gently insert the tip of the nozzle into one nostril, until your fingers on either side of the nozzle are against the bottom of the person's nose. Administer one spray (4 mg) into one nostril. Inform EMS which nostril (right or left) medication was administered in.

After giving Intra-Nasal Naloxone (Narcan®) Spray

- Place person in recovery position (lying on their side).
- Stay with the person until help arrives.
- Maintain airway, monitor circulation, start CPR as necessary.
- **SAFETY:** Following the Administration of Naloxone Nasal Spray, summon police for assistance immediately. The student/person may pose a danger to themselves and/or others.

4. REFER/FOLLOW-UP:

- Have the individual transported to nearest emergency room, even if symptoms get better.
- Contact parent/guardians per school protocol.
- Complete Naloxone Administration Report form.

Nasal spray

This nasal spray needs no assembly and can be sprayed up one nostril by pushing the plunger.

Nasal spray with assembly

This requires assembly. Follow the instructions below.

- 1 Take off yellow caps.
- 2 Screw on white cone.
- 3 Take purple cap off capsule of naloxone.
- 4 Gently screw capsule of naloxone into barrel of syringe.
- 5 Insert white cone into nostril; give a short, strong push on end of capsule to spray naloxone into nose: **ONE HALF OF THE CAPSULE INTO EACH NOSTRIL.**
- 6 If no reaction in 3 minutes, give second dose.
