

### **DISTRICT WEB PAGE**

The Board of Education authorizes the creation of web sites by employees and students of the school district. The creation of web sites by students must be done under the supervision of a professional staff member. These web sites must reflect the professional image of the district, its employees, and students. The content of all pages must be consistent with the Board's Mission Statement and is subject to prior approval of the Superintendent or designee.

The purpose of such web sites is to educate, inform, and communicate. The following criteria should be used to guide the development of such web sites:

A. Educate

Content provided in the web site should be suitable for and usable by students and teachers to support the curriculum and the District's Objectives as listed in the District's Strategic Plan.

B. Inform

Content may inform the community about the school, teachers, students, or departments, including information about curriculum, events, class projects, student activities, and departmental policies.

C. Communicate

Content may provide an avenue to communicate with the community.

All links included on the pages must also meet the above criteria and comply with state and federal law (e.g. copyright laws, Children's Internet Protection Act).

Under no circumstances is a web site to be used for commercial purposes advertising, political lobbying or to provide financial gains for any individual.

Pages should reflect an understanding that both internal and external audiences will be viewing the information.

School web sites must be located on Board-affiliated servers.

The Board retains all proprietary rights related to the design of web sites and/or pages that are hosted on the Board's servers, absent written agreement to the contrary.

All web sites are to be kept current.

Student directory information will only be utilized in accordance with state and federal law.
