

EXTRACURRICULAR ACTIVITIES ACADEMIC POLICY

The Board of Education recognizes the value of a program of extracurricular activities for students in grades 7-12 as an integral part of the total school experience for the students of the District and for the community. However, student participation in extracurricular activities is a privilege and not a right.

For the purpose of this policy, “Extracurricular Activities” refers to a student activity program that a school or the District sponsors, and is under the supervision of a coach/advisor/and/or director. “Extracurricular activities” do not include activities in the District’s graded course of study. However, band and choir students not meeting these established standards will be excluded from all non-graded/non-credit related activities of the organization during the ensuing grade period.

As a condition for the privilege of participating in extracurricular activities, a student must have attained a minimum grade point average of 1.0 and received no more than one failing grade for any course in the district's graded course of study in the previous grade period. In order to continue participation, a student must also receive passing grades in a minimum of five (5) one-credit courses or the equivalent, each of which counts toward graduation during the preceding grading period. In addition, students participating in any program regulated by the Ohio High School Athletic Association (OHSAA) must also comply with any eligibility regulations and bylaws established by the OHSAA.

If a student’s Individualized Education Plan (IEP) indicates that an exemption from this policy would be appropriate, such eligibility requirements shall be adjusted accordingly for the student. However, the OHSAA mandates may not be exempted by an IEP.
