

COLLEGE CREDIT PLUS PROGRAM

Beginning with the 2015-2016 school year, a secondary grade student who is a resident of this state may enroll at a college, on a full- or part-time basis, and complete nonsectarian, nonremedial courses for high school and college credit. This arrangement is known as the College Credit Plus Program (“Program”). Upon successful completion of college-level, nonremedial coursework applicable to at least one degree or professional certification at a partnering college, such student shall receive transcribed credit from the college, except for any of the following:

1. An agreement governing an early college high school program that meets any of the exemption criteria under O.R.C. §3313.6013(E);
2. An advanced placement course or international baccalaureate diploma course, as described in O.R.C. §3313.6013(A)(2)and(3);
3. Until July 1, 2016, a career-technical education program that is approved by the Ohio Department of Education under O.R.C. §3317.161 and grants articulated credit to students participating in that program.

Eligibility Restrictions

To be eligible to participate in the Program, a student must be in the ninth, tenth, eleventh, or twelfth grade, and must satisfy the following requirements:

1. The student or the student’s parent shall inform the principal, or equivalent, by the first day of April of the student’s intent to participate in the Program during the following school year. Any student who fails to provide the notification by the required date may not participate in the Program during the following school year without the written consent of the principal, or equivalent. If a student seeks consent from the principal after failing to provide notification by the required date, the principal shall notify the Ohio Department of Education of the student’s intent to participate within ten days of the date on which the student seeks consent. If the principal does not provide written consent, the student may appeal the principal’s decision to the State Board of Education.
2. The student shall both:
 - a. Apply to a public or a participating private college, or an eligible out-of-state college participating in the Program, in accordance with the college’s established procedures for admission, pursuant to O.R.C. §3365.05;

- f. Scheduling;
- g. Communicating the possible consequences and benefits of participation, including all of the following:
 - (i) The consequences of failing or not completing a course under the Program, including the effect on the student’s ability to complete the secondary school’s graduation requirements;
 - (ii) The effect of the grade attained in a course under the Program being included in the student’s grade point average;
 - (iii) The benefits to the student for successfully completing a course under the Program, including the ability to reduce the overall costs of, and the amount of time required for, a college education.
- h. The academic and social responsibilities of students and parents under the Program;
- i. Information about and encouragement to use the counseling services of the college in which the student intends to enroll;
- j. The standard packet of information for the program developed by the chancellor of the Ohio board of regents pursuant to O.R.C. §3365.

Limitations on Enrollment

A student in grade nine may not enroll in courses for which the student elects to receive credit toward high school graduation for more than the equivalent of four academic school years. A student may not enroll in courses in which the student elects to receive credit toward high school graduation for more than the equivalent of:

1. Three academic school years, if the student so enrolls for the first time in grade ten;
2. Two academic school years, if the student so enrolls for the first time in grade eleven;
3. One academic school year, if the student so enrolls for the first time in grade twelve.

These restrictions shall be reduced proportionately for any such student who enrolls in the program during the course of a school year.

Participation by Non-Secondary School Students

Students in grades seven and eight may participate in the Program if they meet the eligibility criteria required of secondary grade students for participation and shall be subject to the same requirements as secondary grade participants. The parent or guardian of a seventh or eighth grade student participating in the Program shall be responsible for any transportation related to participation in the Program.

Academic Consequences of Expulsion

The Board may deny high school credit for post-secondary courses, any portion of which were taken during the period of an expulsion imposed by the Executive Director or Board. If a college withdraws its acceptance of an expelled student who elected to have the college reimbursed for each course under O.R.C. §3365.07, the Board shall not award high school credit for the college courses in which the student was enrolled at the time the college withdrew its acceptance.

Awarding Grades and Calculating Class Standing

The awarding of grades and the calculation of class standing for courses taken under the Program shall be equivalent to the School's policy for courses taken under an advanced standing program or for other courses designated as honors courses by the School.

Applicability of Credit

High school credit awarded for courses successfully completed under the Program shall count toward the graduation requirements and subject area requirements of the School. If a course comparable to one a student completed at a college is offered by the School, the Board shall award comparable credit for the course completed at the college. If no comparable course is offered by the School, the Board shall grant an appropriate number of elective credits to the participant.

Evidence of successful completion of each course and the high school credits awarded by the school shall be included in the student's record. The record shall indicate that the credits were earned as a participant under O.R.C. Chapter 3365 and shall include the name of the college at which the credits were earned.

Consequences of Withdrawal and Failure to Attain Passing Grades

If a college withdraws its acceptance of an expelled student who elected Option B, any reimbursement under O.R.C. §3365.07 for the student's attendance prior to the withdrawal shall be the same as would be paid for a student who voluntarily withdrew from the college at the same time in the term. If the withdrawal results in the college's receiving no reimbursement, the college or Board may require the student to return or pay for any textbooks and materials it provided the student free of charge.

If the Executive Director determines that the student has not attained a passing final grade in a college course in which the student enrolled under the Program, the Executive Director may seek reimbursement from the student or the student's parent for the amount of state funds paid to the college on behalf of the student for that college course. In accordance with O.R.C. §3313.642(C), the Board may withhold grades and credits received by the student for high school courses taken by the student until the student or the student's parent provides reimbursement.

Unless the student was expelled, the Executive Director shall not seek reimbursement from a student or a student's parent if the student is identified as economically disadvantaged according to rules adopted by the Ohio Department of Education.
