

ORGANIZATIONS SUPPORTING EDUCATION

The Board of Education shall offer the opportunity for any authorized school support entity to purchase coverage under the District's liability insurance program to protect the entity against claims resulting from damage or injury resulting from any act or omission of any school-support entity. The entity shall pay for such coverage upon written notification from the Treasurer.

District support organizations are encouraged to obtain not-for-profit tax exempt status from the Internal Revenue Service (IRS), and to comply with the fund-raising and financial disclosure requirements of the IRS and the Ohio Attorney General.

Any organization not established by the Board must request permission from the Superintendent to use the District's name or claim affiliation with the District. Permission may be withdrawn by the Superintendent at any time if the Superintendent determines that the organization is acting inappropriately or not in the interests of the District. The determination to grant permission to use the District's name or claim affiliation with the District or the withdrawal of such permission may be appealed to the Board.
